

Mobile Air Operated AdBlue (DEF) Dispensing System

The Quantum air operated mobile AdBlue pump kit is perfect for effortlessly transferring AdBlue direct to vehicles or for bulk filling smaller drums.

The unit comes complete with a 208 ltr Trolley, air operated AdBlue pump, auto shut off AdBlue nozzle and includes all hoses and fittings.

- No Electricity required. Just plug into your workshop airline and you are ready to go.
 - Automatic shut off nozzle. Nozzle stops flow of AdBlue when tank is full.
 - Discharge 20 ltrs/min.
 - Can be used with any drum
- Some drums may require an adaptor
