

# Ultra P 0W-30

## Fully synthetic engine oil

An Ultra high-performance, fuel-efficient engine oil for modern passenger cars and light commercial vehicles. Specifically developed for Peugeot-Citroen (PSA) petrol and diesel vehicles with exhaust after treatment and turbochargers.

### Description

Quantum Ultra P 0W-30 is a premium fully synthetic engine oil for modern PSA petrol and diesel engines. Quantum Ultra P 0W-30 is based on the latest additive technology along with a combination of high performance base oils and low ash, phosphorus and sulphur content, which protects exhaust after treatment systems.

### Application

Quantum Ultra P 0W-30 is designed primarily for use in PSA engines where the specification B71 2312 is required. This is mandatory in Euro VI DV and DW diesel engines and can also be used in other PSA petrol and diesel engines. Quantum Ultra P 0W-30 will mix with other oil, but to gain the full benefit, it is recommended to change the oil completely when changing to the Quantum grade. Safety data sheets can be found on the Quantum website.

### Key Points

Improves performance by enabling:

- Improved fuel economy
- Excellent wear protection
- Inhibits deposits in engines and turbochargers
