

Platinum Plus 5W-30 fully synthetic engine oil with QFX[®] technology

A premium, high-performance, low-ash engine oil for petrol and diesel engines with particulate filters, specially developed for Audi, BMW, Mercedes-Benz, SEAT, ŠKODA, Vauxhall (GM) and VW.

Description

Quantum Platinum Plus 5W-30 is a premium, high-performance engine oil designed for passenger cars and light commercial vehicles, manufactured using Quantum QFX[®] technology. QFX[®] provides significant performance benefits compared to conventional oils. These benefits include the highest performance for the entire oil drain period, improved fuel economy, reduced wear and easier cold starts even at very low temperatures.

Application

Quantum Platinum Plus 5W-30 satisfies the requirements of vehicles fitted with exhaust gas aftertreatment devices such as SCR and DPF. As well as being approved for use in VW, Audi, BMW, Porsche and ŠKODA, it is also suitable for use in any vehicle where ACEA C3 is the requirement. It should only be used in diesel engines running on low sulphur fuel. Quantum Platinum Plus 5W-30 will mix with other oil but to gain the full benefit and to fully utilise the QFX[®] technology, it is recommended to change the oil completely when changing to the Quantum grade.

Key Points

Improves performance by enabling:

- Faster oil circulation for easier start-ups
- Lower fuel consumption
- Reduced oil consumption
- Better engine protection by use of advanced additive technology.

Platinum Plus 5W-30

Pack

Part Number	Volume
ZGB115QLB01621	1L
ZGB115QLB01625	5L
ZGB115QLB01622	20L
ZGB115QLB01623	208L
ZGB115QLB01624	Bulk

Typical Values

Test	Unit	Method	Result
Density @ 15°C	g/ml	DIN 51757	0.850
Kinematic Viscosity @ 40°C	mm ² /s	DIN 51562-1	67.2
Kinematic Viscosity @ 100°C	mm ² /s	DIN 51562-1	11.8
Viscosity Index		DIN ISO 2909	173
Flash Point (Open)	°C	DIN ISO 2592	230
