

# Platinum 5W-40 Fully synthetic engine oil

A Premium High-Performance low-ash engine oil specifically designed for petrol engines, diesel engines with particulate filters, and engines with turbochargers. This oil is approved for use in many vehicles including Audi, BMW, Porsche, Renault, SEAT, Skoda, VW and Vauxhall (GM). Also suitable for Mercedes-Benz.

## Description

Quantum Platinum 5W-40 is a premium high performance engine oil designed for passenger cars and light commercial vehicles and manufactured using Quantum QFX technology. QFX provides significant performance benefits compared to conventional oils. These benefits including the highest performance for the entire oil drain period, improved fuel economy, reduced wear and easier cold starts even at very low temperatures.

## Application

Quantum Platinum 5W-40 satisfies the requirements of vehicles fitted with exhaust gas aftertreatment devices such as SCR and DPF. As well as being approved for use in Audi, BMW, Porsche, Renault, SEAT, Skoda, VW and Vauxhall. Quantum Platinum 5W-40 is also suitable for use in any vehicle where ACEA C3 is the requirement. Quantum Platinum 5W-40 should only be used in diesel engines running on low sulphur fuel. Quantum Platinum 5W-40 will mix with other oil but to gain the full benefit and to fully utilise the QFX Technology it is recommended to change the oil completely when changing to the Quantum grade. Safety data sheets can also be found on the Quantum website.

## Key Points

Improves performance by enabling:

- Faster oil circulation for easier start-ups
- Lower fuel consumption
- Reduced oil consumption
- Better engine protection by use of advanced additive technology

# Platinum 5W-40

## Pack

## Typical Values

Part Number	Volume	Test	Unit	Method	Result
		Density @ 15°C	g/ml	DIN 51757	0.854
		Kinematic Viscosity @ 40°C	mm <sup>2</sup> /s	DIN 51562-1	84.0
		Kinematic Viscosity @ 100°C	mm <sup>2</sup> /s	DIN 51562-1	14.2
		Viscosity Index		DIN ISO 2909	176
		Flash Point (Open)	°C	DIN ISO 2592	230
